

Safe & Cost-effective

Methyl Iodide Safe Packaging and Dispense

Store and dispense Methyl iodide safely with IPI's well-proven packaging and dispensing system!

IPI brings you the **safest solution for packaging, dispensing, transfer and storage of methyl iodide**. We supply many of the market leading producers of methyl iodide with a packaging and dispensing system acknowledged as **the industry standard**. The system has been **extensively tested and used around the world for more than 10 years**.

Application

Methyl iodide is suitable for a wide range of applications. It's used in pharmaceutical manufacture, in organic chemical synthesis (methylation agent), in agriculture as a soil fumigant.

 1A1/X3.0/800/D/B/SWN-960427

- **P.U. coated stainless steel containers of 33 or 50 litre volume** from world renowned Schaefer Werke GmbH have a **UN rating of UN 1A1/X3.0/800/D/B/SWN-960427**.
- Containers fitted with the **Macro Valve dispensing system from Micro Matic**, available with seal material compatible with methyl iodide.
- **Secure tamper-evident valve system** prevents unauthorized access to container and **FKMHiPer seals ensure long life time**.
- Alternatively, **containers can be supplied with stainless steel plug**.

Key benefits

- **Closed filling and emptying**
- **Worker protection**
- **Easy-to-handle**
- **Re-usable** for 10-15 years
- **Serviceable**, i.e. replaceable seals and spare parts.
- **Secure, tamper-evident** system.ainless steel plug.
